#### KILLS SHERIFF ON A TRAIN. Desperado Then Leaps From Plat-

form and Escapes.

St. Paul, Minn., June -9 .- Sheriff G. D. Harris of St. Croix County, was shot and killed last night while attempting to make an arrest on an Omaha train near Fall Creek, Wis. The man who did the shooting, whose name is unknown, jumped from the moving train and escaped.

Sheriff Harris had gone to Eau Claire on business and when about to board the business and when about to board the train for Hudson was informed by the Chlef of Police of Eau Claire that a man suspected of burgiary was aboard the train. The Sheriff searched the train and finally located his man in the smoking car. He placed him under arrest and was about to handcuff him when the desperado drew a revolver and fired three times, shooting the Sheriff through the head and killing him instantly.

In the excitement which followed the shooting the murderer ran the entire length of the train, jumping from the rear coach while the train was going at a high rate of speed. He then stole a horse and buggy and made his way to Augusta, where the animal was found to-day, but all further clew to the fugitive's whereabouts apparently lost. Posses are in purposent.

Wia Vandalia-Pennsylvania, 12:30 noon wia Merchants' bridge; six sleepers electric lighted; sleeping car tickets for this train can be purchased only at office, Seventh and Olive streets.

# ST. LOUIS BANKS

Clearings in All the Principal Cities of the Country Show Further Curtailment.

STOCK PRICES ARE STEADY.

Decrease in Business, However, Following Southern Pacific's Plans, Shows General Apathy of the Public.

REPUBLIC SPECIAL.

New York, June 19 -Stock prices were firm throughout the week just closed with one or two special exceptions, but the decrease in business following the announcement of the Southern Pacific's financial plan indicated the apathy and chilly indifference with which the public at large regards the stock market.

Some of the usual phenomena of the limes appeared within the week. There was a continuation of the flow of unem-ployed capital to the reserve centers, railroad reports of earnings were not satis-factory and bank clearances in the princi-pal cities of the country, with the excep-tion of St. Louis, showed further curtailment. These agencies failed to produce any

effect on security prices.

The fall in values some months ago as has been pointed out, discounted the as has been pointed out, discounted the phenomena which are now daily appearing. Meantime business is by no means chaotic, and a fair volume is being done. It is evident that there has been no change in fundamental conditions. The process of relaxation in business is going on apace, evenly, and fortunately slowly. The effect of this process on the price of commodities has only begun to tell. There is no disposition to embark in new enterprises, no matter how enticing the profits may be.

CROP PROSPICOTS

CROP PROSPECTS. There is one factor looming up in the future, however, which is doing more than anything else at present to maintain a stability in prices of securities and may quicken the wheels. Reference is made to the crop prospects. Wheat at the best will be only a moderate yield—even below last year's crep.

quicken the wheels. Reference is made to the crop prospects. Wheat at the best will be only a moderate yield—even below last year's crop.

In cora, however, the present indications point to one of the largest crops ever garnered in the history of the country. While it is yet very early to speak of the harvest of corn, it is a source of information to knew that the acreage planted this year is believed to be the largest on record and is in a condition at least 10 per cent better than a year ago at this time. Crop authorities state that there is planted this year between \$6,00,000 and 100,000,000 acres of corn, and that so far its vegetation has been luxuriant.

In 1900, on an acreage of \$8,800,000 acres, a crop of 2,252,000,000 bushels of corn was raised, but on account of the continued wet weather the corn did not grade, and much of it was useless as a marketable commodity, in the previous year, 1902, the hanner corn year, a crop of 2,500,000 bushels was raised on a planted area of \$6,00,000 acres. This year, on an increased acreage and with a good start, the prospects of a bounteous yield present themselves for the consideration in the estimate of future business of the country.

While corn has been making good headway the same reports are made on the growth of cotton. The enormous acreage planted, as was reported by the Government bureau a short time ago, will produce a bumper crop, if the present favorable conditions: continue.

PACIFIC'S PLANS.

The official notice to the stockholders of the Southern Pacific Company, informing them of the plan to issue \$100,000,000 of preferred stock, was not distributed until after the close of business on Saturday. Unfortunately, the document does not contain anything that might win support from dissatisfied stockholders who have already expressed disapproval of the plan.

plan.

The enormous floating debt which Southern Pacific is carrying is really the most important feature. The plan to finance it may excite differences, but it is now necessary to pay it. Naturally, the stockholders of the property, who have been erroneously led to believe that dividends on the present stock would soon be paid, are dissatisfied with the prospects.

#### COMRADES TRYING TO FIND CAPTAIN RANDOLPH SRY.

Army Veteran, 72 Years Old, Lost at the Fair Grounds, Has Not Been Heard of Since Wednesday.

Bridgewater and L. W. Chandler of Cincinnati. They had been in the city only a day and a half, when Captain Sry became separated from his companions while visiting the Pair grounds.

He is absent-minded, and it is thought that while looking at the exhibits he became interested and kept walking until he was lost and not being familiar with the city has not been able to find his way back to his boarding place.

Captain Sry lives in Cincinnati, but had been visiting in Bridgewater. He is a veteran of the Army of the Tennensec and former comrades Captain W. R. Hodges, General John W. Noble and Charles Parsons have interested themselves in vigorous search to find him.

He is 72 years old, his beard is full gray, he is 5 feet 8 inches tall and weighs 160 to 120 pounds. He wears a black slouch hat, black suit, black lace shoes and a striped shirt with collar attached. Any information of him should be sent to L. W. Chandler or J. W. Negritos Celebrate Arrival of Louis Francis Wilson From Babyland.

IGORROTES JOIN IN REVELING.

hief of Bureau of Insular Affairs Will Be Godfather for Infant When It Is Christenen

Wednesday.

Louis Francis Wilson is the second Filipino baby to be born on the World's Fair grounds. Little Louis first saw the light of day yesterday morning at 4 o'clock. His arrival was attended by a much different reception from that given the first Filipine girl baby, who was born about six weeks ago, and who lived only two days.

Both babies were of the Negrito tribe, and according to the views of this savage people a boy is a far more important member of society than a girl. The baby girl's arrival was regarded as an omen of evil by the older and more superstitious members of the tribe. The parents argued that the first child being a girl and born in a strange country meant nothing short of a warning of some great disaster to their people. And when the baby died two days later no sorrowful mourners followed it to the grave.

With the case of the boy it was quite different. There was great rejoicing in the Negrito village all day yesterday. The revelry extended even to their neighbors. the Igorrctes, and they joined hands with the Negritos in helping to celebrate the important occasion with native dances and songs, according to their pagan custom The Negritos represent the smallest

tribe, both in numbers and physical stature in the island. Louis Francis Wilson, when weighed yesterday, tipped the scales at one pound and a half, and Doctor W. P. Wilson, chairman of the Philippine Board stated that the baby was, at that, a fine, big, healthy infant.

The baby, according to native custom of the people, was named immediately, although it has two more names than it would have been given at home in the Island. Louis is in honor of St. Louis, Francis

after President Francis of the Exposition, and Wilson after Doctor W. P. Wilson of the Philippine Board.

Colonel Clarence R. Edwards, Chief of the Bureau of Insular Affairs at Washington, who came to St. Louis to attend the dedication of the Philippine Reservation at the World's Fair, will stand as godfather to the baby at its christening on Wednesday. The Reverend Father Jose Algue of Manila will officiate at the chrisening ceremonies.
